WORK EXPERIENCE

Operations & Strategy Support - Family-Owned Villa Business

Jan 2025 to Present

- DINOOS Leisure & Resorts Pvt. Ltd.- Villa Dinoos. Boutique hospitality property operating in Sri Lanka serving international and domestic tourism markets.
- Coordinated operational activities including guest services, reservations, and facility management for a boutique hospitality business, supporting smooth day-to-day operations.
- Supported revenue planning and cost management by analyzing booking trends, pricing strategies, and operating expenses to improve financial planning decisions using self-developed excel KPI dashboards.
- Supported strategic expansion planning transforming a boutique villa into a micro-resort concept by evaluating development opportunities and operational models.

Junior Cybersecurity Analyst – CryptoGen

May 2025 to July 2025

- Worked in cybersecurity monitoring operations protecting enterprise clients including banks and public sector institutions, through early detection of operational and cyber risks.
- Assisted the Security Operations Center in incident triage, cyber threat analysis, and rapid containment, helping maintain service reliability and security compliance standards.
- Worked with enterprise monitoring and detection platforms to analyze security data and support risk mitigation within regulated environments.

KEY PROJECT EXPERIENCES

Boutique Resort Investment Feasibility & Operating Model Report

Report Link – To be completed

Roles: Project Manager, Investment Analyst

- Conducted a comprehensive feasibility study for a boutique resort project including capital budgeting, financing strategy, revenue projections and risk analysis.

- Developed financial models evaluating NPV, payback period, cost structures and operational strategy.
- Report covered end-to-end project evaluation including site development, chalet design economics, revenue management and investment appraisal.

NFC-Based Attendance Management System – Product & Market Study

Project Link – To be completed

- Designed an NFC-enabled attendance solution integrating smart cards and NFC readers.
- Conducted market research and product positioning analysis targeting institutional clients.
- Developed marketing strategy and go-to-market campaign as part of a university marketing management project.
